“ Pamela was my patient for about 3 years  
She was a woman with strong convictions and great wisdom. She was proud of her responsibility as a Jewish person and her commitment to make our world a better place. I was always impressed by her loyalty to people she loved and how hard she strived to do things right. It is hard for me to accept that she is no longer with us. I miss her greatly.

“ I was proud to have called Gail "my best friend" for over twenty years. I so admired her dedication to her Faith and was more than once struck by her kindness as we stopped her car for her to roll down her window and offer money to the person standing there holding a "please help" sign, because in her words "he needed it". Anyone who knew Gail knew how tenacious she could be in striving for her goals and also how witty she was. It was so easy for her to make people laugh and enjoy themselves. She was a very special human being. To all her other friends and especially to her family, please know that I am grieving with you. I loved Gail dearly and will miss her always.
